

Overview and Demo of Mobile Employee Productivity Suite Applications

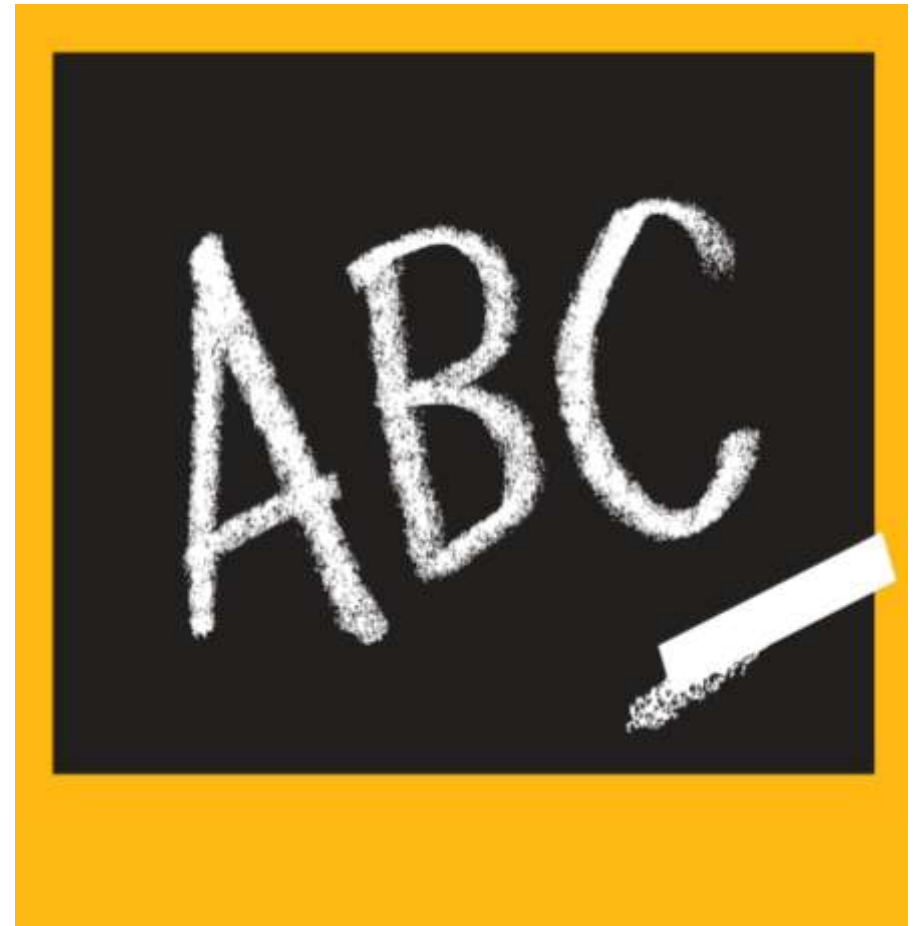

Gergely Megyesi - Mobile Application Unit, SAP Hungary, Budapest

Session goals / Agenda

**Understand mobile employee
productivity suite applications**

See the applications in live action

Understand mobile employee productivity applications

SAP Mobile Enterprise Productivity applications

With the new apps in the area of HCM, Sales, Finance and Procurement you as a customer can

Increase the efficiency of your employees

Speed up your business processes

Stay up-to-date even when not in the office

Key characteristics:

Fast and easy installation and introduction

Easy-to-use, modern user interfaces

Built on the top of well known SAP modules

Business benefits for our customers

Example: SAP Timesheet

„What is this all about?“

Enables time entry capturing on mobile for every single employee within an organization having a smart phone

Speeds up time capturing and related business processes via convenient access to the employee's time sheet

Key Pain Points Addressed

Users cannot enter working times via a mobile device (professional services) – process/billing gets delayed

Remembering time entry details is difficult after entry was made

Roles and processes - HCM

Roles

Team member

Manager

Business process
